

3 Prof. Zhongqiang Chen

Name: Zhong-Qiang Chen

Organization: China University of Geosciences (Wuhan)

E-mail: zhong.qiang.chen@cug.edu.cn

Major Publications

- Chen, Z. Q., & Benton, M. J. (2012). The timing and pattern of biotic recovery following the end-permian mass extinction. *Nature Geoscience*, 5(6), 375-383.
- Chen, Z. Q., Kaiho, K., & George, A. D. (2005). Survival strategies of brachiopod faunas from the end-permian mass extinction. *Palaeogeography Palaeoclimatology Palaeoecology*, 224(1), 232-269.
- Chen, Z. Q., Kaiho, K., & George, A. D. (2005). Early triassic recovery of the brachiopod faunas from the end-permian mass extinction: a global review. *Palaeogeography Palaeoclimatology Palaeoecology*, 224(1-3), 270-290.
- Kaiho, K., Chen, Z. Q., Kawahata, H., Kajiwarra, Y., & Sato, H. (2006). Close-up of the end-permian mass extinction horizon recorded in the meishan section, south china: sedimentary, elemental, and biotic characterization and a negative shift of sulfate sulfur isotope ratio. *Palaeogeography Palaeoclimatology Palaeoecology*, 239(3-4), 396-405.
- Lan, Z., Li, X., Zhu, M., Chen, Z. Q., Zhang, Q., & Li, Q., et al. (2014). A rapid and synchronous initiation of the wide spread cryogenian glaciations. *Precambrian Research*, 255(6), 401-411.
- Tian, S., Chen, Z. Q., & Huang, C. (2014). Orbital forcing and sea-level changes in the earliest triassic of the meishan section, south china. *Journal of Earth Science*, 25(1), 64-73.
- Luo, M., & Chen, Z. Q. (2014). New arthropod traces from the lower triassic kockatea shale formation, northern perth basin, western australia: ichnology, taphonomy and palaeoecology. *Geological Journal*, 49(2), 163-176.
- Chen, Z. Q., Wang, Y., Kershaw, S., Luo, M., Yang, H., & Zhao, L., et al. (2014). Early triassic stromatolites in a siliciclastic nearshore setting in northern perth basin, western australia: geobiologic features and implications for post-extinction microbial proliferation. *Global & Planetary Change*, 121(10), 89-100.
- Chen, Z. Q., Yang, H., Luo, M., Benton, M. J., Kaiho, K., & Zhao, L., et al. (2014). Complete biotic and sedimentary records of the permian-triassic transition from meishan section, south china: ecologically assessing mass extinction and its aftermath. *Earth-Science Reviews*, 149, 67-107.
- Liu, Y., Priscu, J. C., Yao, T., Vick-Majors, T. J., Michaud, A. B., & Jiao, N., et al. (2014). A comparison of pelagic, littoral, and riverine bacterial assemblages in lake bangongco, tibetan plateau. *Fems Microbiology Ecology*, 89(2), 211-221.
- Li, F., Yan, J., Chen, Z. Q., Ogg, J. G., Tian, L., & Korngreen, D., et al. (2015). Global oolite deposits across the permian-triassic boundary: a synthesis and implications for palaeoceanography immediately after the end-permian biocrisis. *Earth-Science Reviews*, 149, 163-180.
- Yang, H., Chen, Z. Q., Wang, Y. B., Ou, W. Q., Liao, W., & Mei, X. (2015). Palaeoecology of microconchids from microbialites near the permian-triassic boundary in south china. *Lethaia*,

48(4), 497–508.
